SKIPPED OUT

San Domingo's President
Leaves His Capital.

WAR IS IMMINENT.

Leaders of the Different Factions
Marshal Their Soldiers and
Prepare to Fight.

Washington, Dec. 27.—The secretary of war yesterday received the following cablegram from Acting Comptroller and Receiver of the Dominican Customs Edwards, dated at Santo Domingo:

"Carlos F. Morales, dissatisfied with cabinet support, left capital last night with a few followers. His intention is said to be to join Jimenez in opposition to Horacio. Conflict between the two forces is imminent, probably in vicinity of San Juan or vicinity of Puerto Plata. Morales may make attempt to establish a new capital and create a new cabinet. Political excitement, but without disturbance here. Receiver-ship is not affected yet. George R. Colton should be at Monte Christi Tuesday."

George R. Colton referred to in the above is the receiver of Dominican customs.

Advices received at the state and navy departments from San Domingo indicate that a serious condition of affairs exists there. The captain of the port of Puerto Plata was shot and killed during an insurrectionary movement and the governor of that province has defied the general government and barricaded the town. The Dominican government had issued a decree removing the governor. The state department has determined that this is an internal difficulty and will not intervene at this stage.

San Domingo, Dec. 27.—Following the announcement that the president of the republic, Gen. Carlos F. Morales, had left the capital for an unknown destination, troops were sent in pursuit of the chief magistrate. What took place after that cannot be definitely determined, but it is known that a fight took place about ten miles from here and it is supposed that Gen. Pimentel, the rebel commander, was attacked by government troops.

The whereabouts of the fugitive president is not known. It is generally supposed that he endeavored to gain the coast and embark on board a sloop with the object of reaching Puerto Plata, on the north coast of San Domingo.

Turks Island, Bahamas, Dec. 27.—Mail advices received here from Monte Christi, San Domingo, say that Guayubin, Dajabon and Sebaneta have taken up arms against the government and the Dominican-American fiscal convention. A STRANGE STORY.

It Is Told by an Albany Woman and Is Vouched for by a Physician.

Albany, N. Y., Dec. 27.—Mrs. Alfred Wilts, of 815 Central avenue, this city, is the mother of a three-days-old daughter which she insists was born 116 days, or less than four months, after she had given birth to a son. Her story is partially vouched for by Dr. George T. Moston, a reputable physician who attended her. Both parents are a few months over 20 years of age. Dr. Moston said last night that he believed the woman's story.

"The child is normal," he said, "and I saw the other child, who is apparently not more than four months old, showing as yet no signs of a tooth. Mrs. Wilts told me that no physician attended the other birth, though one was sent for and her only attendant was a woman with whom she boarded, but whose present address she does not know. Mrs. Wilts' mother and family vouch for the truth of her story and share in the surprise occasioned by the phenomenon."

The appeal will be entered in regular order within the next 30 days.

OHIO NEWS.

Happenings in the Buck-
eye State.

MR. RATCHFORD'S REPORT.

More Capital Invested in Ohio Industries in 1904 Than in 1903.

Columbus, O., Dec. 23.—Nearly \$20,000,000 more capital was invested in Ohio industries in 1904 than in 1903, according to a bulletin issued yesterday by Commissioner Ratchford, of the bureau of labor statistics, but with this increase of capital there was a decrease of men employed amounting to 21,501. There was an increase, however, in the number employed in offices of 895.

In 7,761 factories reporting in 1904, \$405,832,302 was invested. There were 268,716 men employed, 53,562 women, 32,498 office men and product worth \$720,662,642.75 was made. Of this, \$720,662,642.75 produced in goods, labor was paid in wages less than one-fourth the amount, being \$164,316,934.90. The superintendents and office men received \$35,179,399.20. In 1903 over 60,000 men received an advance in wages and only 4,000 a reduction; but in 1904 only 22,368 had their wages raised and 31,222 had their pay reduced.

Marsh Is Exonerated.

Lorain, O., Dec. 27.—That William Marsh had nothing to do with starting the fire which destroyed the theatre building the other night and caused the death of four persons, is the firm belief, now, of Coroner French. The coroner came here yesterday morning and held the inquest. He examined ten witnesses at Parkside chapel. Every minute of the time of Marsh on the night of the fire was satisfactorily accounted for, and the coroner said that he was not implicated in any way. The coroner evidently thinks that James Dwyer, who lost his life in the burning building, had something to do with starting the fire.

Was Not Involved in Bad Deals.

Youngstown, O., Dec. 27.—Rumors that G. M. McKelvey, the capitalist, who shot and killed himself Sunday, was involved in bad financial deals, are denied by Mason Evans, vice president of the Commercial national bank, of which McKelvey was president. Evans says that McKelvey's affairs were in better condition than those of any other business man in Youngstown, and that \$500 will pay all his debts. The rumors of financial trouble caused much anxiety here, as McKelvey was interested in many stock companies.

Father and Daughter Killed.

Lima, O., Dec. 26.—Henry Haunhorst, a prominent farmer of Van Wert county, and his daughter, Rose, aged 24, were instantly killed by the west-bound New York-Chicago 18-hour train of the Pennsylvania road, on a street crossing at Delphos, 14 miles west of here, Monday morning. The man did not notice the approaching train and the horse was upon the crossing when it was hit by the engine and killed. The side of the train hit the buggy and wrecked it and crushed the heads of Haunhorst and his daughter.

Receiver Appointed.

Akron, O., Dec. 25.—The Akron Gas Co., one of John R. Walsh's properties, went into the hands of a receiver Saturday, the petition being filed by Squires, Dempsey & Saunders, of Cleveland, on a claim of \$5,703 for coal furnished by the Younglosheney and Ohio Coal Co. The local manager, A. B. Ellbeck, was appointed receiver. The plant under the present ownership has been running since 1898, when Walsh purchased it from W. G. Dawes, of Chicago, and the company is capitalized at \$400,000.

A Man Without a Country.

Cincinnati, Dec. 27.—"A man without a country," describes the status of Jose Delgado, a Porto Rican, who has been living in Cincinnati for three years. Delgado asked the United States court clerk's office Tuesday for immediate naturalization, stating that he had become a citizen of the United States when Spain ceded Porto Rico to the former. Deputy Clerk Georgi was unable to find a statute that applied. District Attorney McPherson declined to give an opinion.

Saturday in the hall of the house; the democratic house caucus is set for Saturday evening in the hall of the house; the time of the republican senate caucus has not been decided upon. Nervous Women

Their Sufferings are Usually
Due to Uterine Disorders
Perhaps Unsuspected

A MEDICINE THAT CURES

Can we dispute the well-known fact that American women are nervous?

How often do we hear the expression, "I am so nervous, it seems as if I should fly," or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism, which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the ovaries and between the shoulders. Loss of voice; nervous dyspepsia. A tendency to cry at the least provocation. All this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Mrs. M. E. Shotwell, of 103 Flatbush Avenue, Brooklyn, N. Y., writes:

"I cannot express the wonderful relief I have experienced by taking Lydia E. Pinkham's Vegetable Compound. I suffered for a long time with nervous prostration, backache, headache, loss of appetite. I could not sleep and would walk the floor almost every night."

"I had three doctors and got no better, and life was a burden. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it has worked wonders for me."

"I am a well woman, my nervousness is all gone and my friends say I look ten years younger."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women.
